Loan products:

1. Highlighted in green==> Chemsha
2. Highlighted in yellow==> Jijenge

Roles:

I. Admin/Manager

li. Staff

lii. customer

Description ;

- ☐ Admin/manager portal; add staff overview to the sidebar menu for manager or admin to view all staff with their performances and tasks assigned to them, enable admin/manager to add/create new staff instead of seeding them in the db
- ☐ Add loan products creation to the admin sidebar to add products later instead of coding them.
- ☐ Staff Portal; staff to register new customers from the field and then create loans for customers assigned to them, enable them to record payments collected from field in cash.
- ☐ Add stk push for staff portal for loan collection to avoid reconciliation issues later for error in paying the loan

- ☐ Enable customers to track their loans and pay through the system optionally
- ☐ Save temporary passwords for customers created for admin/staff to access them later and send it to them instead of copying instantly
- ☐ Enable staff to record the payment of the processing fee and prompt the admin/manager for loan approval
